Willkommen & Benvenuti

Our goals for this week:

- Meet new people from another country
- Discover similarities and differences
- Learn new perspectives
- Make new friends
- Speak English together

warm up

walk around in the room

ask questions

note down the names

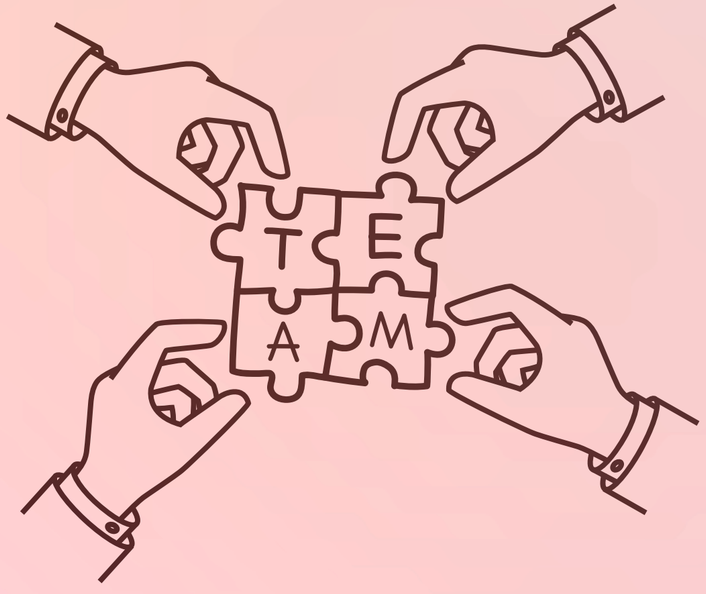

Find someone who...

... has got a pet.	... has a brother or sister.	... likes pizza.	... plays a sport.	... avoids* plastic bags.
... plays an instrument.	... recycles at home.	... loves video games.	... likes watching movies.	... enjoys reading books.
... has got brown eyes.	... listens to rap music.		... likes vegetables more than fruit.	... shops online.
... buys second hand clothes.	... plays soccer.	... likes summer more than winter.	... has got a phone that's more than 6 years old.	... loves shopping.
... would live in another country.	... is left handed.	... has his/her birthday in this month.	... can sing well.	... can speak in another language.

*avoid = try not to use

form teams

STEREOTYPES

Austrians...

1. ... are very punctual and always on time.
2. ... love skiing and winter sports.
3. ... are more quiet and reserved.
4. ... love the mountains and hiking.

discuss further stereotypes if you have got time left

Italians...

1. ... talk very loudly and with many hand gestures.
2. ... love pasta and pizza and eat them all the time.
3. ... are always a little bit late.
4. ... are very emotional and expressive.

Waste and Consumption

1. How many recycling bins do you have at home? What is each bin for?
2. What color are the containers in your country?
3. Do people recycle well in your country?
4. What happens to food waste?
5. Do supermarkets sell many plastic-free products?
6. Do you bring your own shopping bag?
7. Do people drink tap water or bottled water?
8. Are second-hand clothes popular?
9. Do people often buy new clothes?
10. Do people repair things or buy new ones?

video on pollution

Prepare a presentation!

Topics:

- plastic waste

- food waste

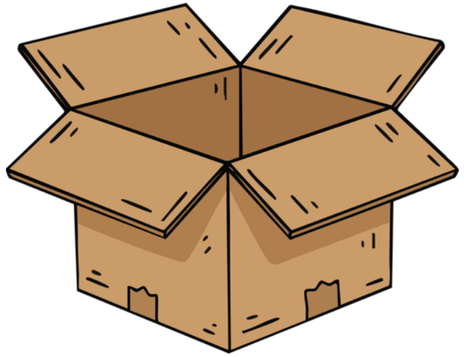

- electronic waste

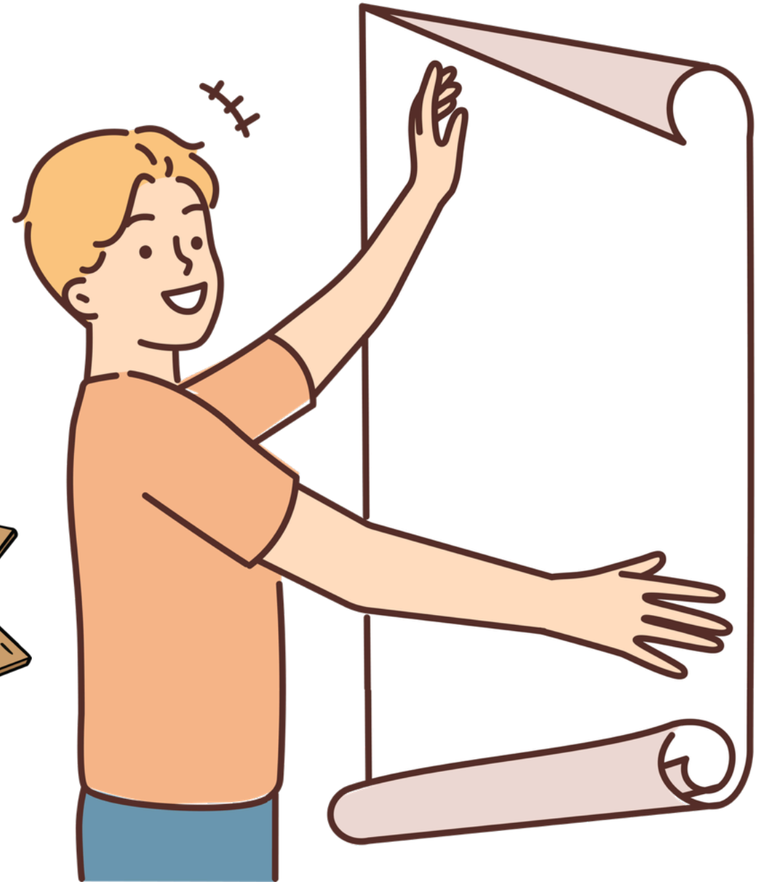

- textile waste

- packaging waste

What should your presentation include?

1) Information about the problem

- What is this type of pollution?
- Why does it exist?
- Who profits from it?
- How does it harm our planet?

2) Quiz questions for the class

Create 4–6 quiz questions about the facts you found.

3) Solutions

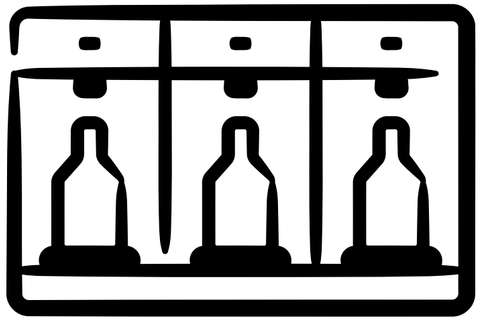

- What can people do to reduce this problem?
- What alternatives exist?

Presentation
Time

Create your plastic-fee supermarket!

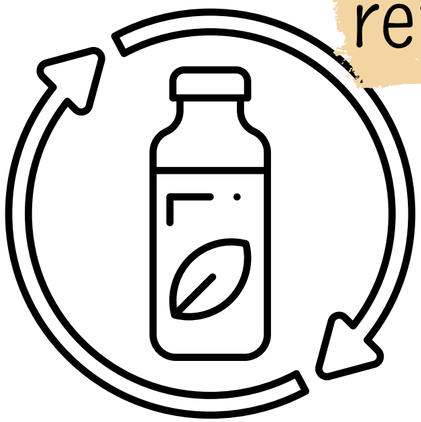

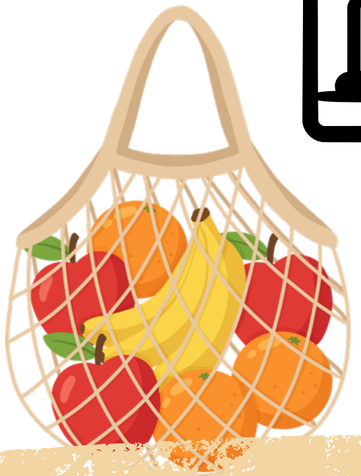

refill station

refillable tube

cotton nets

glass containers

dispenser

beeswax

bamboo

1. fruit
2. vegetables
3. milk
4. cheese
5. yoghurt
6. juice
7. meat
8. fish
9. candy
10. snacks
12. rice
13. cereals
14. soap
15. shampoo
16. toilet paper

Solution:

1. Dairy & Milk Products
Milk → glass bottles, cartons, refill stations
Cheese → paper wrapping, beeswax, reusable containers
Yogurt → glass jars or home refill options
2. Drinks
Water → reusable bottles refill stations
Juice → glass bottles or cartons
Soda → cans or glass bottles
3. Meat & Fish
Fresh meat → butcher paper, reusable containers, bulk counter
Fish → paper, reusable trays
Pre-packaged deli → encourage customers to bring their own containers
4. Candy & Snacks
Bulk bins → students can scoop into their own bags/boxes
Chocolate → paper wrappers or cardboard boxes
Chips/crisps → metal tins, paper bags
5. Fruits & Vegetables
Loose fruit/veg → no packaging, paper bags, mesh bags
Organic/seasonal → same, encourage local produce
6. Bakery & Bread
Bread → paper bags or cloth bags
Pastries → paper boxes
7. Dry Foods / Pantry
Pasta, rice, cereals → bulk bins, bring-your-own jars
Beans, nuts, flour → refill stations
8. Cleaning & Household Products
Soap → bar soap, refillable containers for detergent
Cleaning sprays → refillable bottles
Toothpaste → tablets, powder, or refillable tubes
9. Personal Care
Shampoo → solid bars or refill stations
Toothbrushes → bamboo or reusable
Toilet paper → paper wrap instead of plastic
